

Explore our Holiday Decorating Services this season with Great Valley Holiday Lights and Decor!

Now Scheduling
2025 Fall Pool Closings
and Holiday Lights & Décor
Consultations

Let your imagination and the professionals at Great Valley Holiday Lights and Décor be your guide in turning your home into a festive wonderland of holiday cheer! The magic begins when we combine the distinct features of your home with creativity and skill, resulting in a display that will provide amazement and happiness to your friends, family and neighbors!

Residential Decorating

As the recognized professionals in the area, we will create a holiday lighting and decorating plan that accentuates the unique features of your home. Providing a comprehensive array of decorating options - including energy efficient LED lights, supplies, decorations and manpower – Great Valley Holiday Lights & Décor can transform your home into a spectacular wonderland for you to capture the spirit of the holidays.

Commercial Decorating

Our trained installers will safely and efficiently decorate your business or storefront with professional-grade holiday lights and greenery, creating a warm, inviting atmosphere that keeps shoppers coming back. Whether you're a small retailer or a large commercial space like a shopping center, restaurant, or office building, our experienced team will get the job done right with minimal disruption to your business.

Complete, Hassle-free Holiday Lighting Service

Our professional team is dedicated to delivering a stunning and safe holiday display. Each package includes:

- A Complimentary Custom Design Consultation
- Complete Professional Installation
- Proactive In-Season Service
- Timely Takedown
- Secure Off-Season Storage
- Trained and Fully Insured Professional Installers

Superior Materials

We use only high-quality, commercial-grade decorations that look better and last longer than anything you'll find in stores—no more dealing with tangled, half-burned-out lights. Our products deliver reliable, professional results year after year and include: *safe electronics, LED lighting, damage-free fasteners, lifelike greenery.*

Check out our website at www.gvholidaylights.com or call us today at 610-889-0711 to schedule your appointment!

Great Valley Holiday Décor Shoppe

Stop by our holiday retail store open November 1st - January 15th

Celebrate the season in style with holiday décor from Great Valley Holiday Lights & Décor Shoppe. Our beautifully decorated retail store offers a curated selection of trimming accessories, nativity sets, tabletop collectibles, and premium commercial-grade greenery, including long-lasting LED wreaths and garland. You'll also find stockings, stocking holders, advent calendars, and more.

Skip the crowds and picked-over shelves at big box stores—visit our elegant holiday shoppe and experience the magic for yourself.

2025 WINTERIZE SERVICES

WE REQUIRE PAYMENT IN FULL UPON ORDERING FOR ALL CLOSING SERVICES. ANY ADDITIONAL CHARGES INCURRED AT THE CLOSING WILL BE BILLED SEPARATELY AND ARE DUE WITHIN 10 DAYS.

WINTERIZE POOL \$345.00

Includes blowing water from piping, plugging lines with rubber expansion plugs, draining equipment, and removing ladders, diving boards, and rails for indoor storage. Remove, rinse, and reinstall diatomaceous earth (DE) filter elements, bag filters, and cartridges. The water level will be lowered to 1"-2" below the tile. (Mineral cartridge will be removed and discarded for those with mineral systems). **Pool will be winterized in the condition in which it is found. Please balance pH, alkalinity, and hardness prior to service so the chemicals have a chance to circulate.**

- Additional pumps (excluding cleaner pumps) will have an extra charge of \$62 per pump to winterize (i.e. water feature, spa jet).

WINTERIZE POOL WITH SPA \$428.00

Includes all of the above, plus blowing water from all spa piping and plugging lines with rubber expansion plugs.

- Additional pumps (excluding cleaner pumps) will have an extra charge \$62 per pump to winterize (i.e. water feature, spa jet).
- \$164 added to the Winterize Pool Only price for pools with separate spa systems
- \$109 extra for Caretaker filter systems

DISCLAIMER: Plastic jet fittings, drain plugs, pump and filter plugs, and drain covers degrade over time, and can be damaged due to their age when removed. Great Valley Pool Service is not responsible for replacements that may be necessary due to the integrity of these plastic fittings.

INSTALL POOL COVER \$185.00

If you would like us to set up your cover pump, please place the cover pump, garden hose, and extension cords by the pool, and we will be happy to install free of charge. For water bag covers, any additional water bags needed to properly secure the cover will be added to the final bill.

For anchored covers with cable assemblies:

- \$59 for assemblies less than 10 ft.
- \$89 for assemblies over 10 ft.

WINTER WATCH SERVICE \$160.00 (per visit)

A comprehensive winter maintenance visit that includes testing and balancing water chemistry, agitating water for chemical dispersion, checking cover pumps, removing large debris from covers and pool bottom, inspecting cover security and pool equipment such as GFCI switches, and maintaining proper winter water level. Available as a one-time or recurring monthly visit. Service suspended once pool is frozen.

- \$120 for cables using waders/flotation devices
- \$204 for removal of child safety gate surrounding pool required to install cover

DISCLAIMER: If these items are not readily available by the pool, and we need to return after your winterize is complete to set them up, a \$93 service charge will apply. Great Valley Pool Service is not responsible for leaking water bags or covers that fall into the pool.

WINTER CHEMICAL KIT \$142.39 + tax

(For pools up to 30,000 gals.) Compatible with salt systems* Includes:

- ½ Gal Stain & Scale Preventative
- 1 Gal Winter Algicide
- 1 Non-Chlorine Winter Floater

*For pools with past scaling issues or salt systems, we recommend an additional quart of Stain & Scale Preventative

SPA WINTER CHEMICAL KIT \$51.49 + tax

(Spas or small pools up to 7,500 gals.)

Includes:

- 1 Pint Stain & Scale Preventative
- 1 Pint Winter Algicide
- 1 Small Non-Chlorine Winter Floater

SALT WATER POOLS

CLEAN SALT CELL \$53.00

Cleaning the cell is recommended annually at closing.

Mineral deposits often build up on the metal plates of the generator due to calcium's natural attraction to the electrically charged plates. When these deposits build up too much, it blocks the ability for electrolysis to occur. Over time, if this is not cleaned, the buildup can permanently damage the coating on the plates, leading to cell failure.

STAIN AND SCALE \$25.29 + tax

We recommend adding an extra quart of Stain & Scale for salt water pools to prevent salt from coming out of solution.

2025 Fall Order Form

Submit Your Order Online at
www.greatvalleypool.com

No phone orders will be accepted. We schedule fall closings on a first-come first-served basis.

CHECK ANY BOXES THAT APPLY. WE REQUIRE PAYMENT IN FULL WITH ORDER.

Winterize 1st choice - Week Of*: _____

2nd choice - Week Of*: _____

We cannot schedule exact times or days.

*We make every effort possible to schedule the closing as close to the requested date as possible. We reserve the right to charge a \$20 reschedule fee for any date changes once a date has been provided.
** Please note if you cancel, a \$30 administrative fee will be deducted from your refund check, which will be mailed to you.

Signature: _____

Your signature shall indicate agreement to charge the full amount of the order to the form of payment indicated above.

WE WILL EMAIL YOU WITH YOUR CLOSING DATE IN APPROXIMATELY 2 WEEKS ONCE YOUR ORDER HAS BEEN PROCESSED, AND CONTACT YOU THE EVENING PRIOR TO YOUR SCHEDULED DATE AS TO AM OR PM ARRIVAL

TERMS AND CONDITIONS

- We will charge your credit card for the full amount of your order at the time of booking. If additional charges apply beyond the online booking amount due to unknown repair, additional products needed or additional services that are identified once onsite, you will be required to provide your credit card number again for those fees. If we have payment information on file, you authorize the additional charges to be paid automatically by the payment method stored in your account.
- A representative will process your order and send you an email with the exact pool closing date within 1-2 weeks of your order submission. The evening prior to scheduled service, you will be contacted through text, email, and automated voice message as to am or pm arrival.
- Please choose your date carefully. There will be a \$20 administrative fee to reschedule your closing once your order has been submitted.
- An administrative cancellation of \$30 applies to all canceled pool closings. All refunds are made by check.
- If tech arrives onsite, but is prevented from completing the service for any reason, a return trip fee of \$93 may be applied.
- Plastic jet fittings, baskets, drain plugs, and drain lids degrade over time and can be damaged due to their age during removal. Great Valley Pool Service is not responsible for replacements that may be necessary due to lack of integrity of these plastic fittings. Their removal is required for proper winterization.
- Additional charges will be applied for diving board hardware that needs to be replaced.
- GVPS cannot assume responsibility for delays beyond our control.
- Test and balance water a few days before closing. It is not included in standard winterization. A winter chemical kit will only be added if requested in attempt to condition water through the winter. This kit does not balance pool water. Spa kits are recommended for spas.
- Please secure all pets. To ensure our technician safety, we will not close your pool if your pet is not secure, and your closing will be rescheduled at our convenience. Customer accepts all responsibility for injuries from pets inflicted on our technicians.
- We will lower the water level the recommended 1" - 2" below the tile. If you would like to have your water lowered further, it will be billed accordingly at \$54 per quarter hour.
- Pool should be as clean as possible. Clean leaves out prior to closing. No vacuuming will be done at closing. If requested, 15 minutes of leaf raking can be done prior to us putting on the cover. Additional leaf raking time over 15 minutes will be billed at \$54 per quarter hour.
- Your pool cover should be available by the pool, or instruct us as to its whereabouts so it can be obtained. Due to the risk of personal injury, GVPS will not retrieve covers from locations that require holding the cover above the head or carry covers up and down stairs.
- Cover pumps, which are necessary to minimize water displacement and damage to pool structure, must be pool side on closing day. A \$93.00 service charge will apply for a return trip if your cover pump is not left out at closing and you request GVPS to return for this.
- Covers are secured as thoroughly as possible. Disclaimer: It is normal for leaves to blow under the cover during the course of the winter.
- GVPS is not responsible for debris that gets in over the winter.
- Motors will remain attached unless otherwise instructed. Additional \$55 each to remove motors.
- Electricity and water need to be available pool side. We will need this to properly winterize the system.
- Do not shut down systems prior to winterization as freeze damage may occur.
- Certain valve handles, plugs, and misc. equipment are placed in pump basket for safekeeping.
- Invoices for additional charges assessed at closing are auto charged to form of payment 7 days from completion of service and are due within 10 days.
- Finance charges will be assessed after 10 days for any outstanding balances at 18% APR.
- Shocking or heavily chlorinating prior to winterization may result in premature cover wear. With a pool cover on and our cold water formulated winter algicide in our winterize chemical kit, no chlorine needed.
